THE EQUITABLE

The Hendricks Report Regarded As Opening New Depths to Be Sounded.

THE PENNA GROUP ACTIVE

Large Operations Centered Therain-Supposed Meaning of the Reading Increase.

(By Associated Press.)

NEW YORK, June 22.—The advance in prices continued in the Slock Exchange to-day for the fourth successive day. The obstacles encountered in the offerings to take profits increased quite materially, but they were absorbed with considerable facility. The advance of the material profits in the profi facility. The action of the market war-ranted a conviction that the movement was in the hands of an organized party ranted a conviction that the movement was in the hands of an organized party of skilled operators bent on attracting a following of outsiders by demonstrating the possibilities of strength in the market. The influence of yesterday's increase in the Reading dividend was obvious in the Reading dividend was obvious in the direction taken by to-day's speculation, the largest operations centering in the Pennsylvania group. The Reading increase is supposed to indicate the probable policy of the directors of the Baltimore and Ohio, Norfolk and Western, and Chesapeake and Ohio, and the benefits to result to the Pennsylvania itself from its holdings of these subsidiary stocks made it a sharer in the movement. The advance was not simultaneous at all ports of the lift, but quite comprehensive gains were established by a system of rotation. An improved sentiment in the iron trade reported by the Iron Age was dwelt upon, but the United States Steel stocks themselves were late in coming into the movement, and the preferred stock falled to share to any extent at all.

The Hendricks report on the Equitable Life affair was regarded as opening, up new depths to be sounded. But any unfavorable effect on stocks was overridden by the Progress of the speculative campaign.

The profit-taking made the market irregular late in the day, but the day's gains were not substantially impaired.

ridden by the progress of the speculative campaign.

The profit-taking made the market irregular late in the day, but the day's gains were not substantially impaired.

Bonds were firm. Total sales, par value, \$3,340,00. United States honds were all unchanged on call.

The total sales of stocks for the day smounted to \$55,700 shares.

Lynchburg Todacco Market.

Lynchburg, Va., June 22, 1905.

Sales of loose tebacco on the Lynchburg market for the two weeks ending June 9, as reported by John L Oglesby, of Lynch's Warshouse, were as follows:

Sold week ending June 2d, 172,670 pounds; sold week ending June 2d, 172,670 pounds; sold week ending June 9th, 115,160 pounds.

Sold from September I, 1905, to June 9, 1905, 15,046,500 pounds; sold from September 1, 1903, 10, June 98, 1904, to June 98, 1904, to 20,22,000 pounds decrease for 1905, 5,286,160 pounds.

The receipts of tobacco continue quite light. The condition and quality of the offerings were about as for the past few weeks. Prices on lugs continue fully up, but all grades of leaf were rather low. The weather has been very favorable, and the tobacco crop is about all planted. There is general complaint of the cutworm, which is foling grass damage by outling off the none see plants.

Will Go to Buckroe.

The many friends of Clay Street Methodist Sabbath School will be pleased at the announcement that the school will have its annual plenic Monday, June 28th, at Buckroe Beach, as this will give them the double pleasure of a day's outing with this school and also the privilege of dipping in the briney deep.

The committee has been untiring in their efforts to insure an enjoyable day to every one who is fortunate enough to go.

Repeating Tack Hammers.

The smashed fingers and shocking profaulty, traditional accompaniments of amateur carpet laying, are soon to disappear before the advance of invention. Some one has devised a magazine tack hammer, having a hollow handle filled with tacks, which are fed automatically to the head. Here a magnetiskes the place of the fingers, and holds them upright ready for driving. The operator, as he raises the hammer, pulls a latch on top of the handle, and a tack is picked out by the magnet. The down stroke dives it, and this process is repeated until the magazine is empty, when it can readily be filled again.

Have Been Worse Defeats. "Rojestvensky needn't feel so bad," re-marked the cilipen who is always sorry for the misordunes of others. "Why not?" Well, Togo lost a small torpede boat, Dewey didn't even do that."-Louisville Courier Jour-nal.
